

# ATLAS

---

*Step 0:* Homework: before using this tool, all students should study a specific part of the course (one tool each)

*Step 1:* Participants form groups of 4, each with a different tool

*Step 2:* Each participant prepares a short presentation focusing on the description of the tool, his/her opinion on it and how the tool can be used in practice

*Step 3:* The first member of the group presents his/her instrument and point of view; other members of the group also give their opinions.

*Step 4:* Other members alternate.
