

QUESTION DISCUSSION CONCLUSION METHOD

Target

Improving the work done on a challenge for which the presenter needs help Using each other's expertise to enhance one's own learning improve

Work method

Participants form groups of 4

Each participant completes the following sentences on the adapted module:

I need help with. . .

ommany things this group needs to know about my custom module to help me (background information) . . .

The first member of the group presents his/her custom module and points out where he/she needs help and shares some additional information with other members of the group.

Other 3 contestants discuss the presenter's dilemma.

The presenter listens and summarises what has been said

Other members alternate.
